THE BLUE PRINT OF MY LIFE

DATE

DUE : 9/19/2011

CLIENT

SHAKIFUR BHUIYAN

Introduction

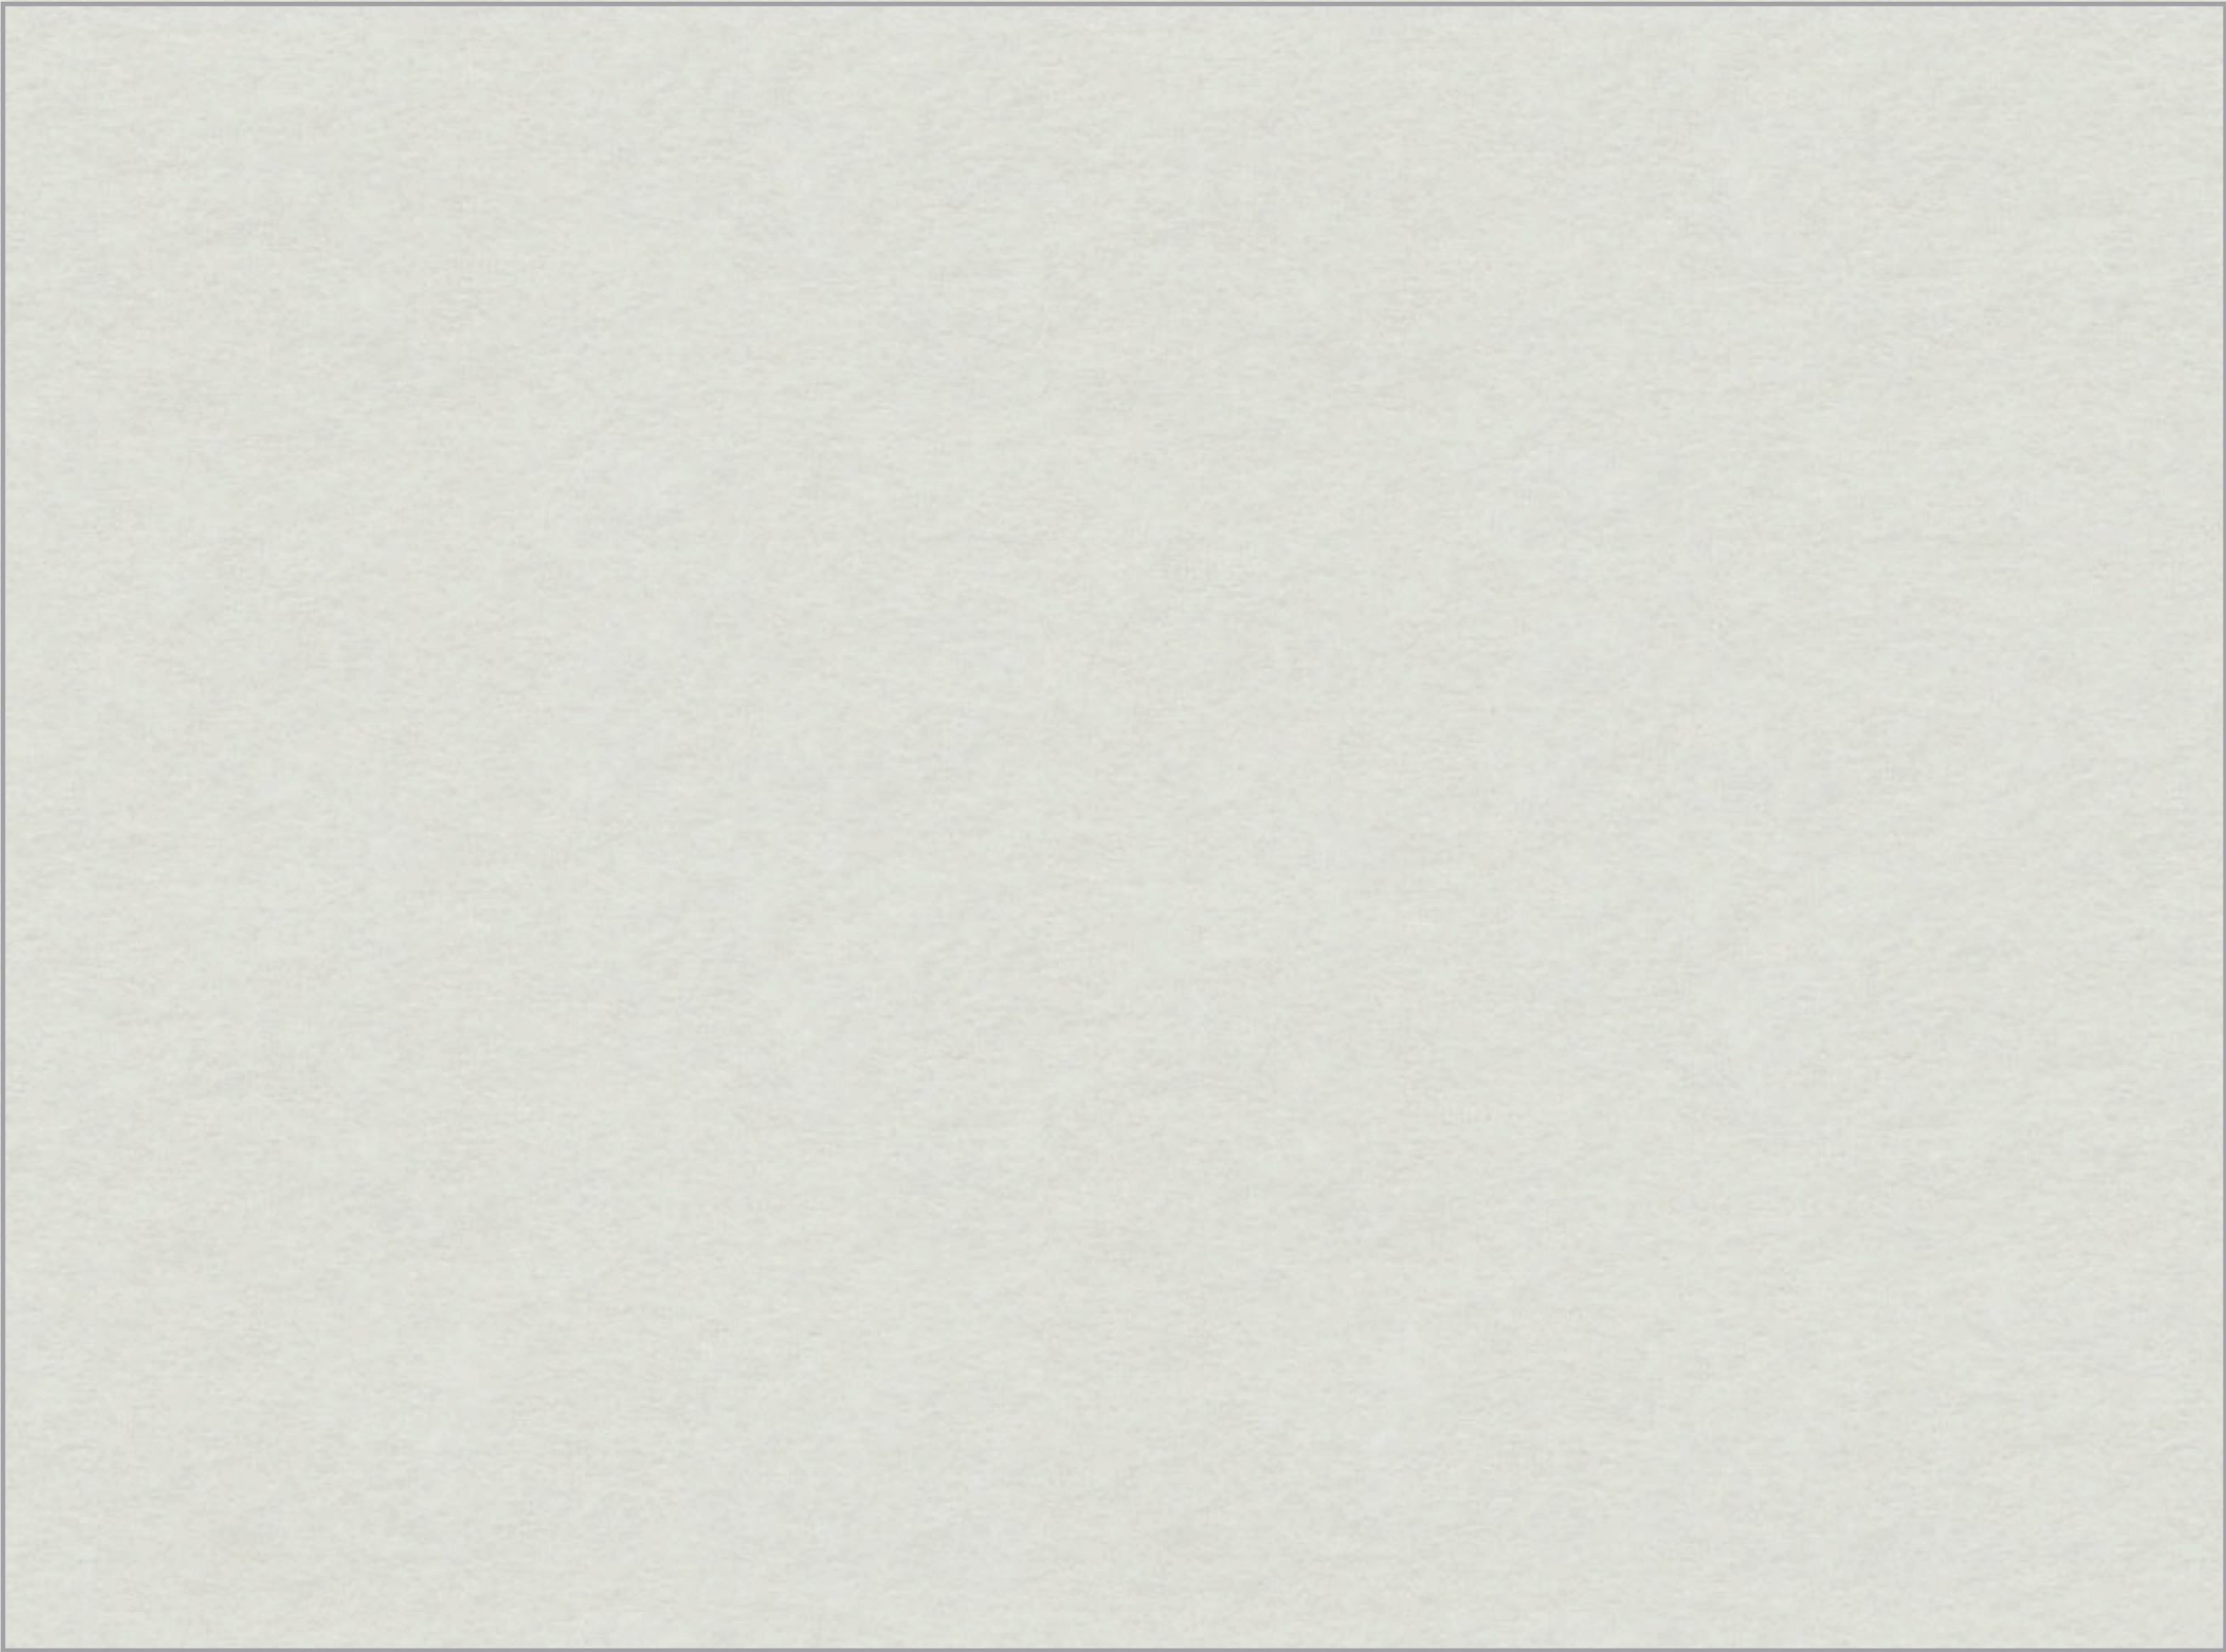

- ✱ It is my last and final year in middle school R.E.L.C 113 and I expect that I achieve many things academically and also socially. There are many things in which I can improve on and make me an even greater student. On this path of becoming a better person there will also be many people helping me reach my expectations. There are also a few questions regarding to myself on what am I doing myself to reach my achievements. There are many things that I can do to improve my self physically and out of school.

An Improved Student

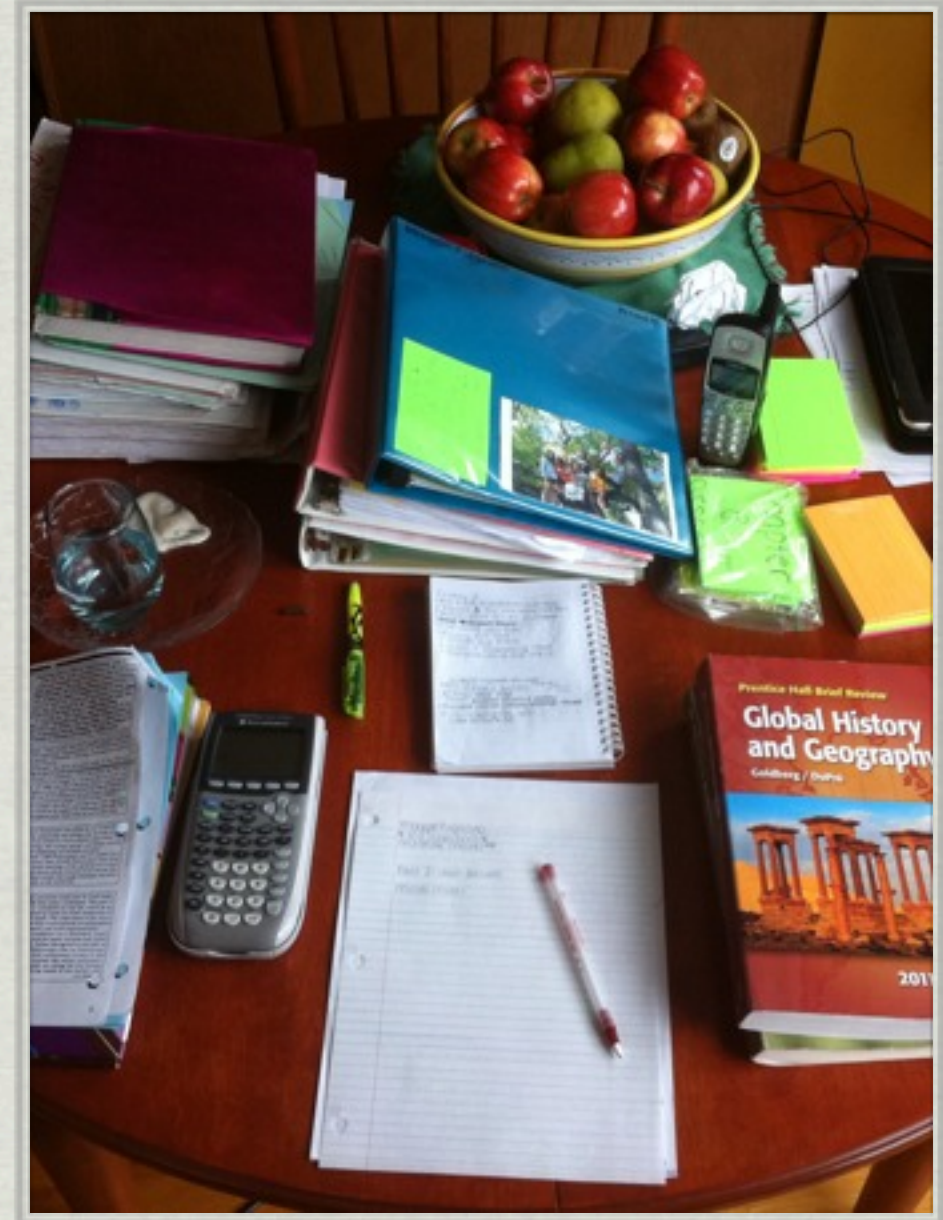

- ✱ There are a few things that I can do to make me a better student in and out of school. One way I can start this process is by aiming higher and reaching for the principles honor roll, not just the regular school honor roll. In order to reach the principles honor roll I must higher my expectations to begin with and aim for the principles honor roll. The way that I will be able to do this is by after receiving my grades, I must gather all the information and see if I am fit for the principles honor roll, and that is one way I can become a better student. Another thing is that, it is also very important is that I must maintain my grade of above a 95%. Another way in which I can become a better student is by completing all class work on time and also ask each of my teachers for extra credit if any way possible, needed or not needed. A few people that can help me achieve this goal are my teachers. I can go to them on spare time and ask for extra credit.

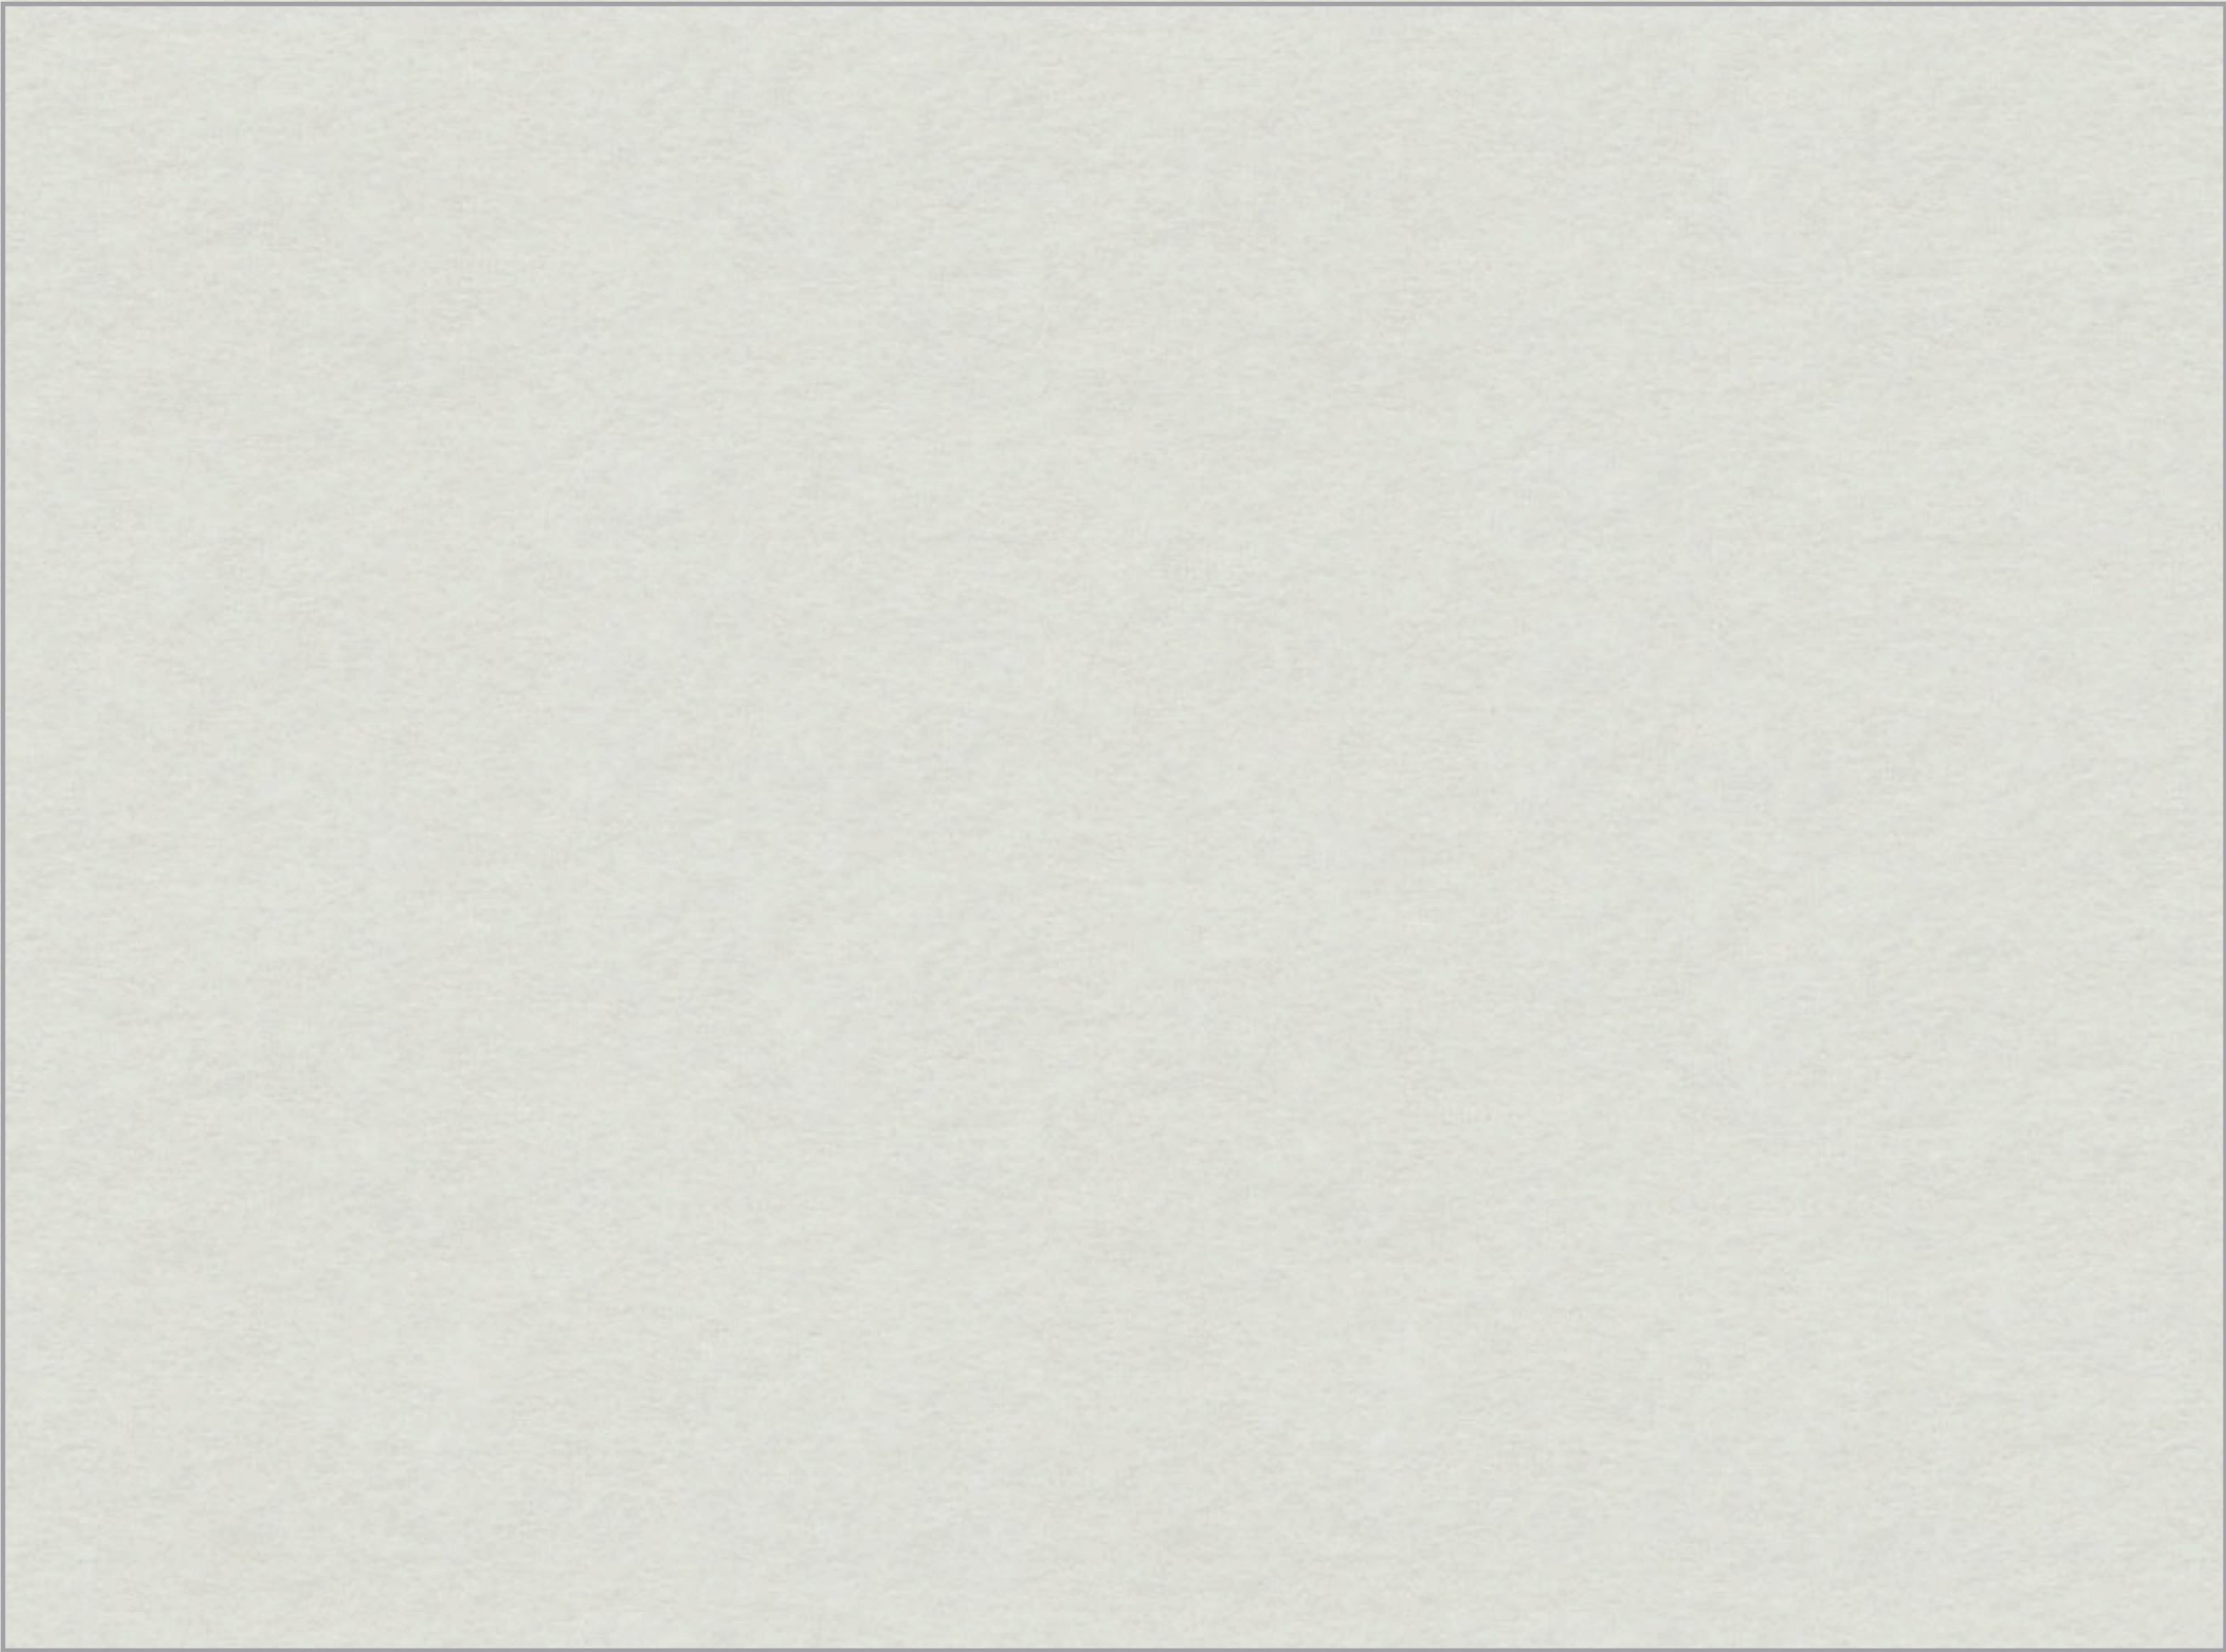

Important Exams

- ✱ During my 8th grade senior year in R.E.L.C 113, I am going to have to take many important exams in order to have a good start to my high school year. I will have to take a couple of regents, like the Earth Science and ELA regents. One of the most important exams that i will have to take is the SHSAT high school exam. I have spent so much time and money with courses that if I don't get a satisfying score it will all be a waste. The high school that I am aiming for is Stuyvesant, Bronx Science, or Brooklyn Tech.

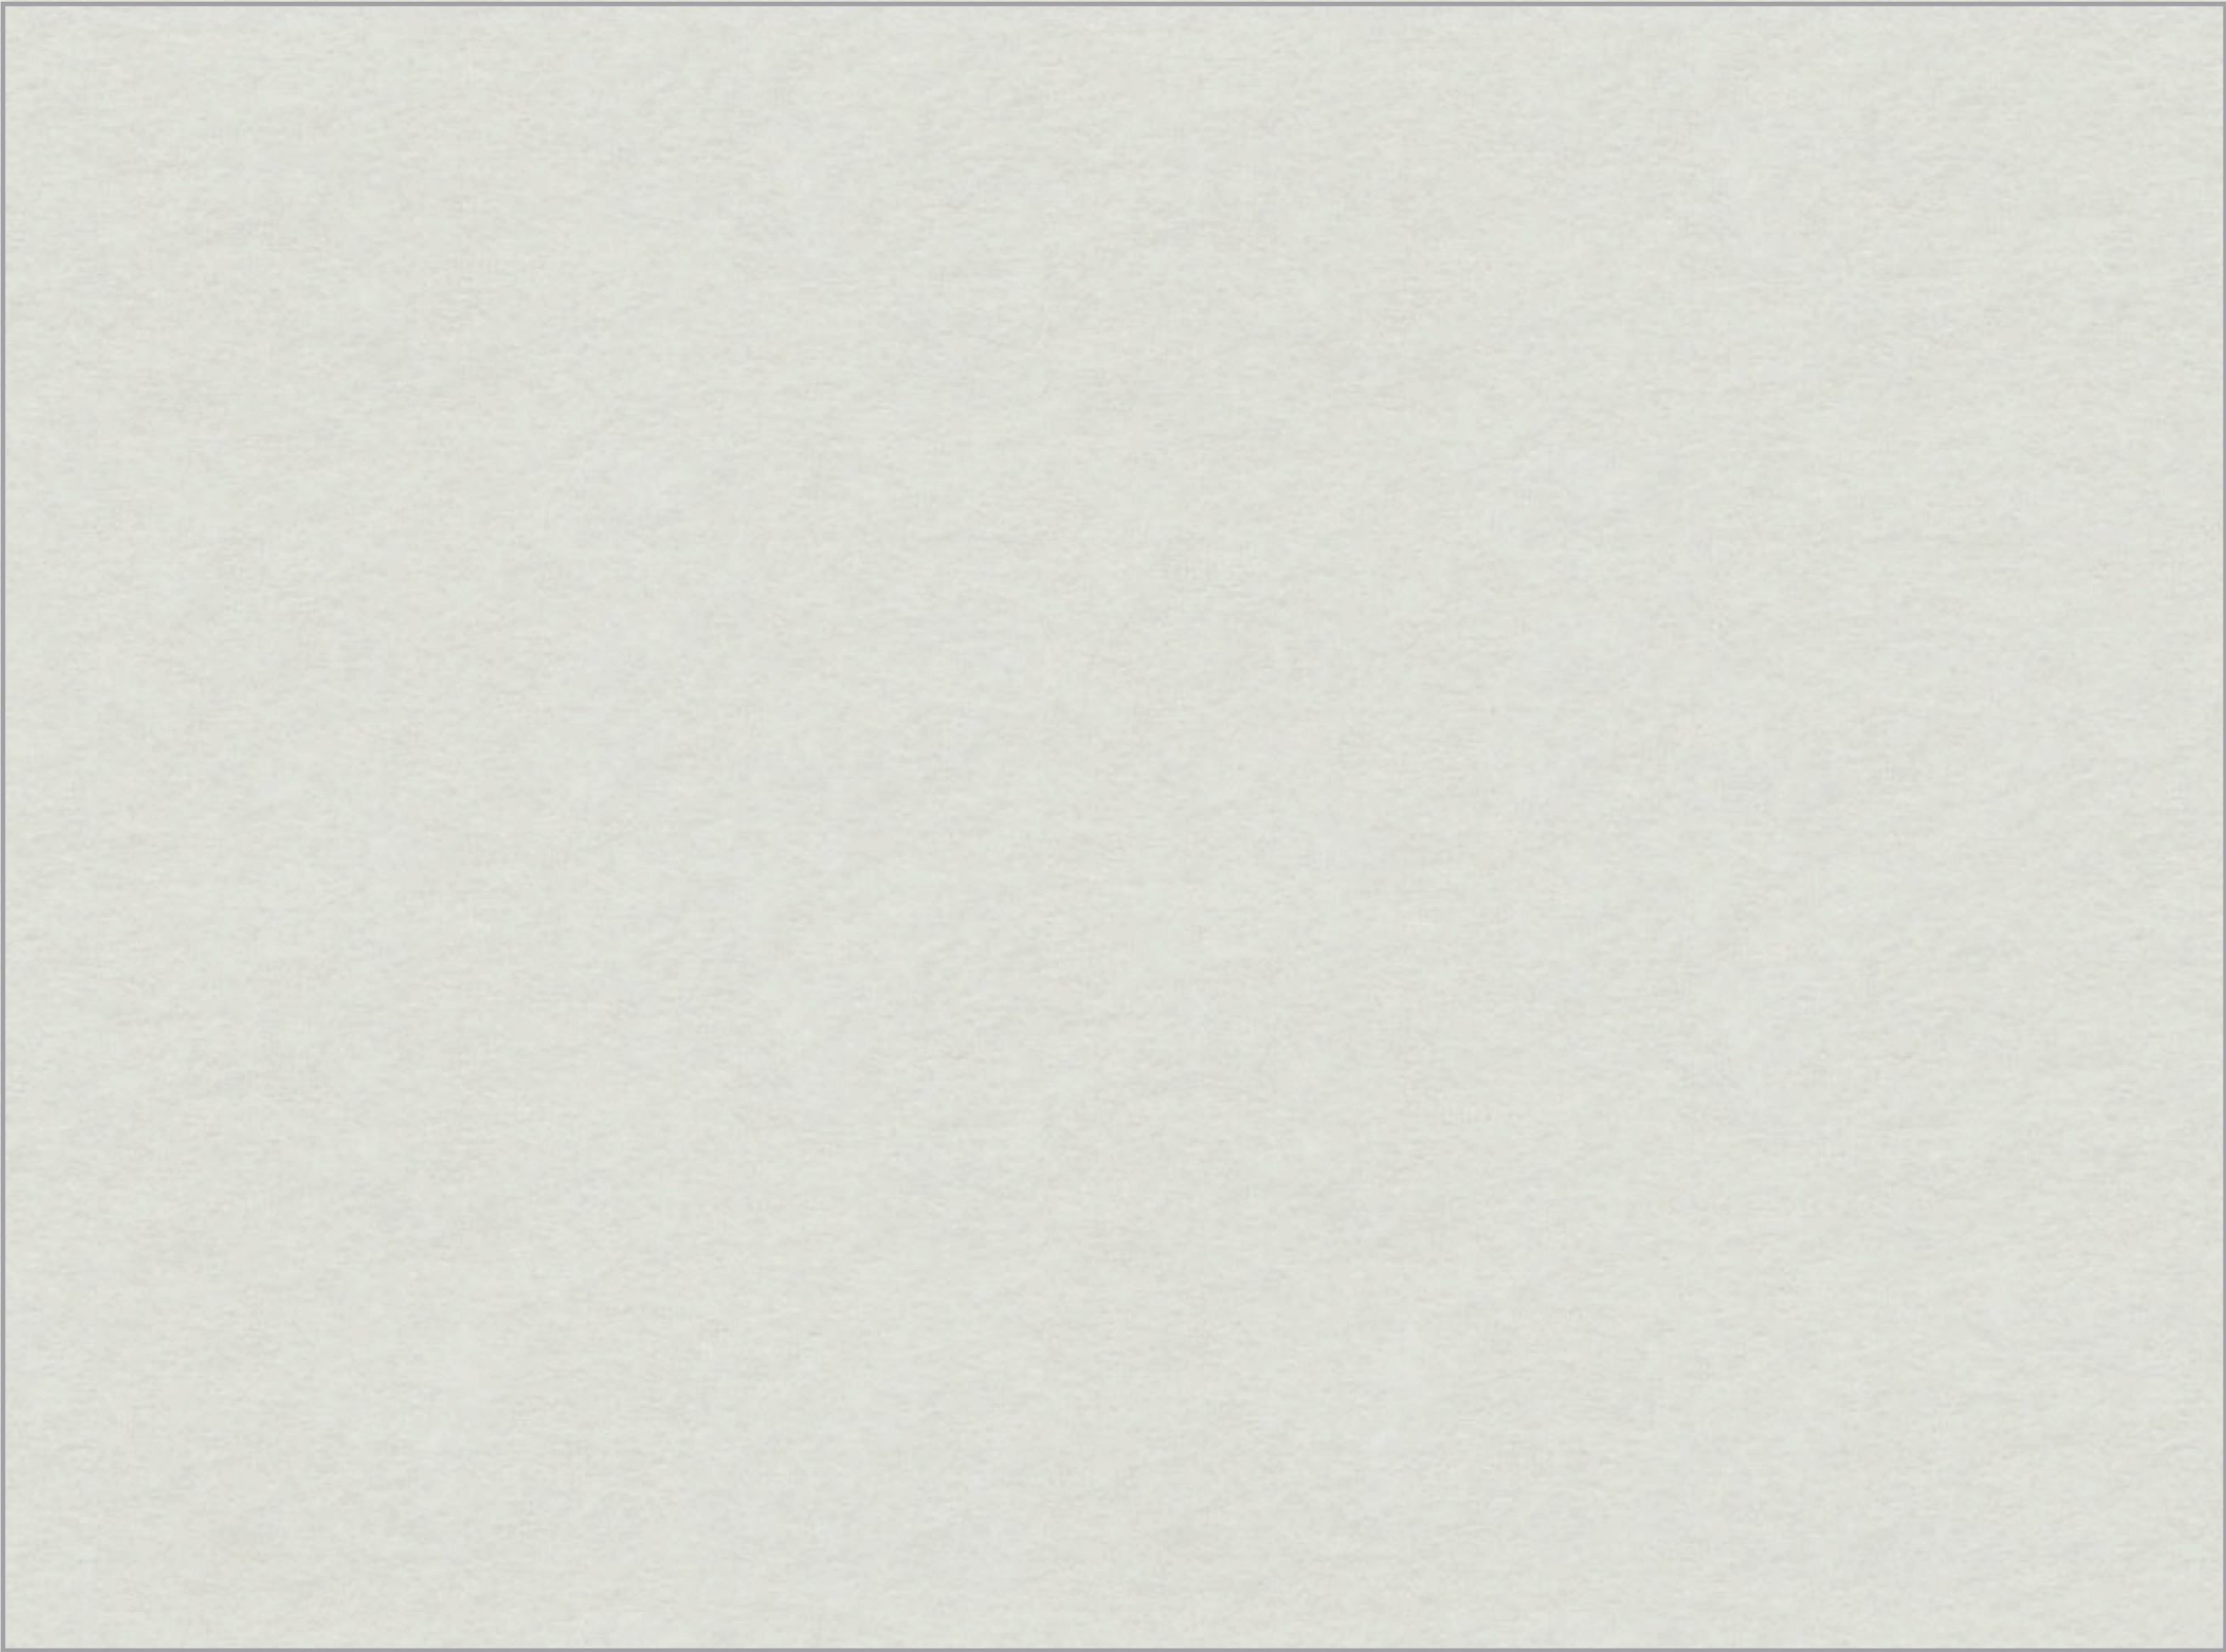

Internet MONEY

- ✱ The way that I will make money on the internet is that I will make tutorial videos for youtube. The way that I will get money is that is I will make introduction videos, after viewers see the video I will put a link to my website and they can download the whole tutorial for a selected price. To make more money I will also make an app that people can download for 2.00 \$

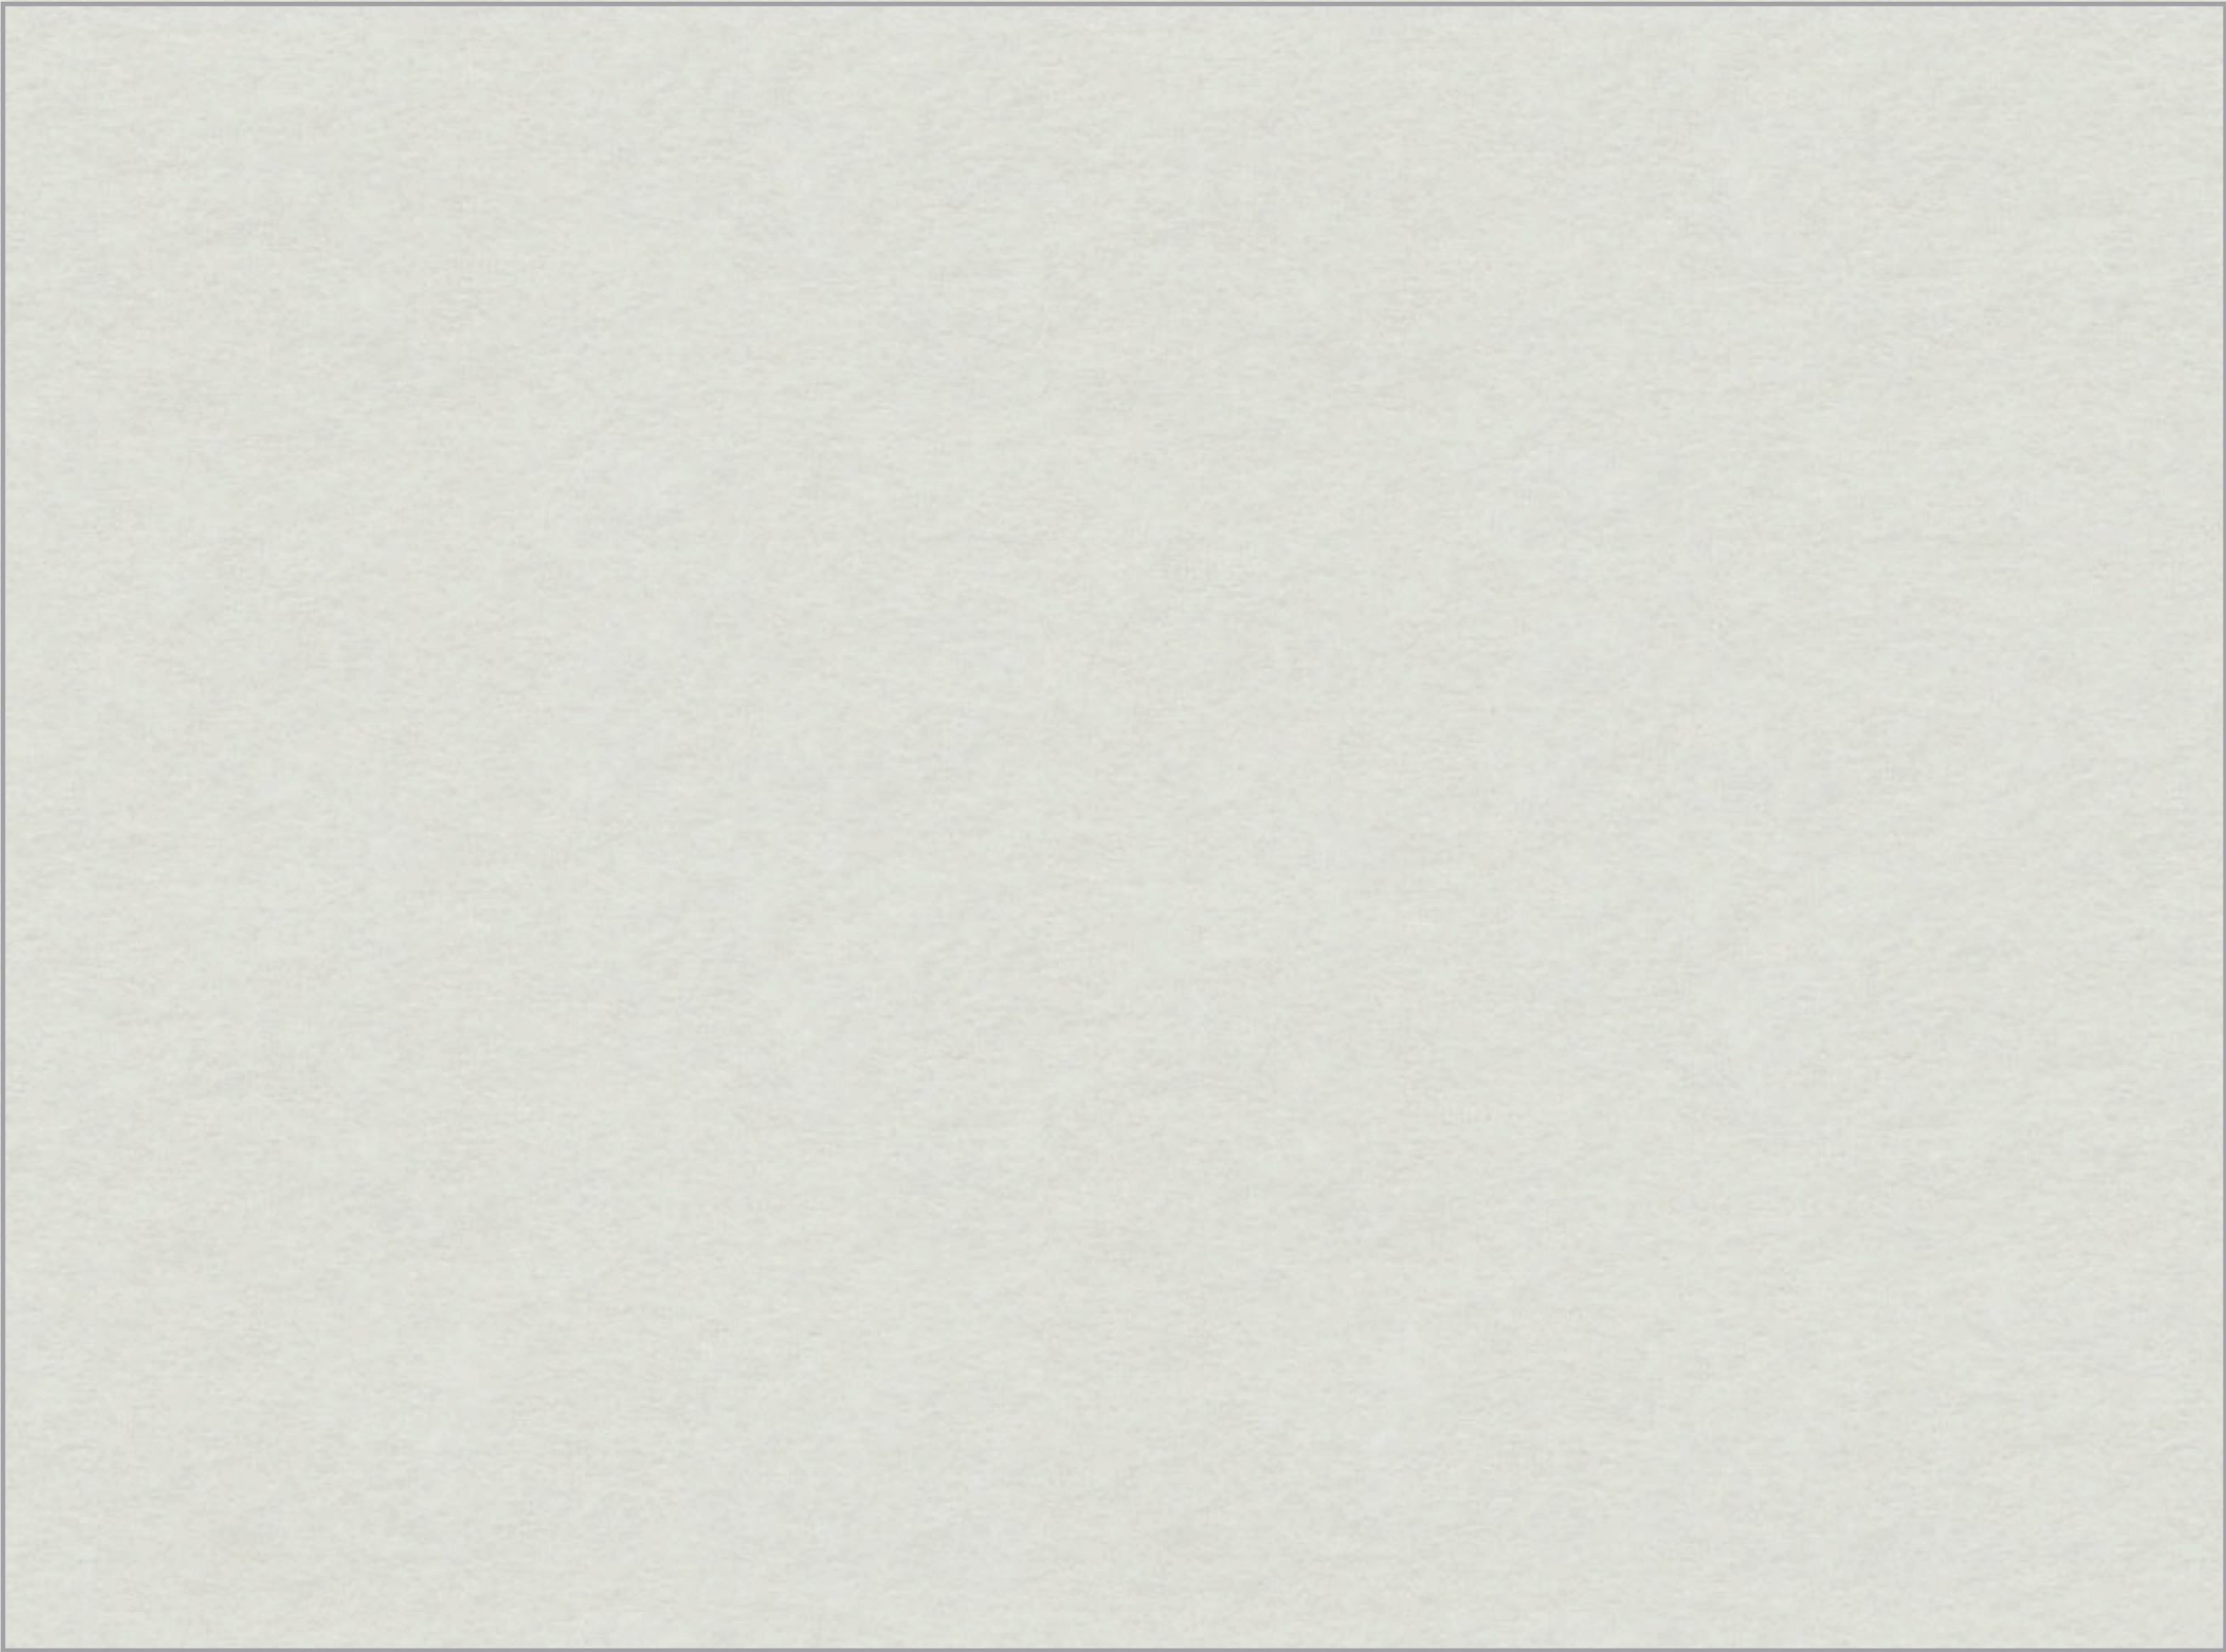

Athletic Skill

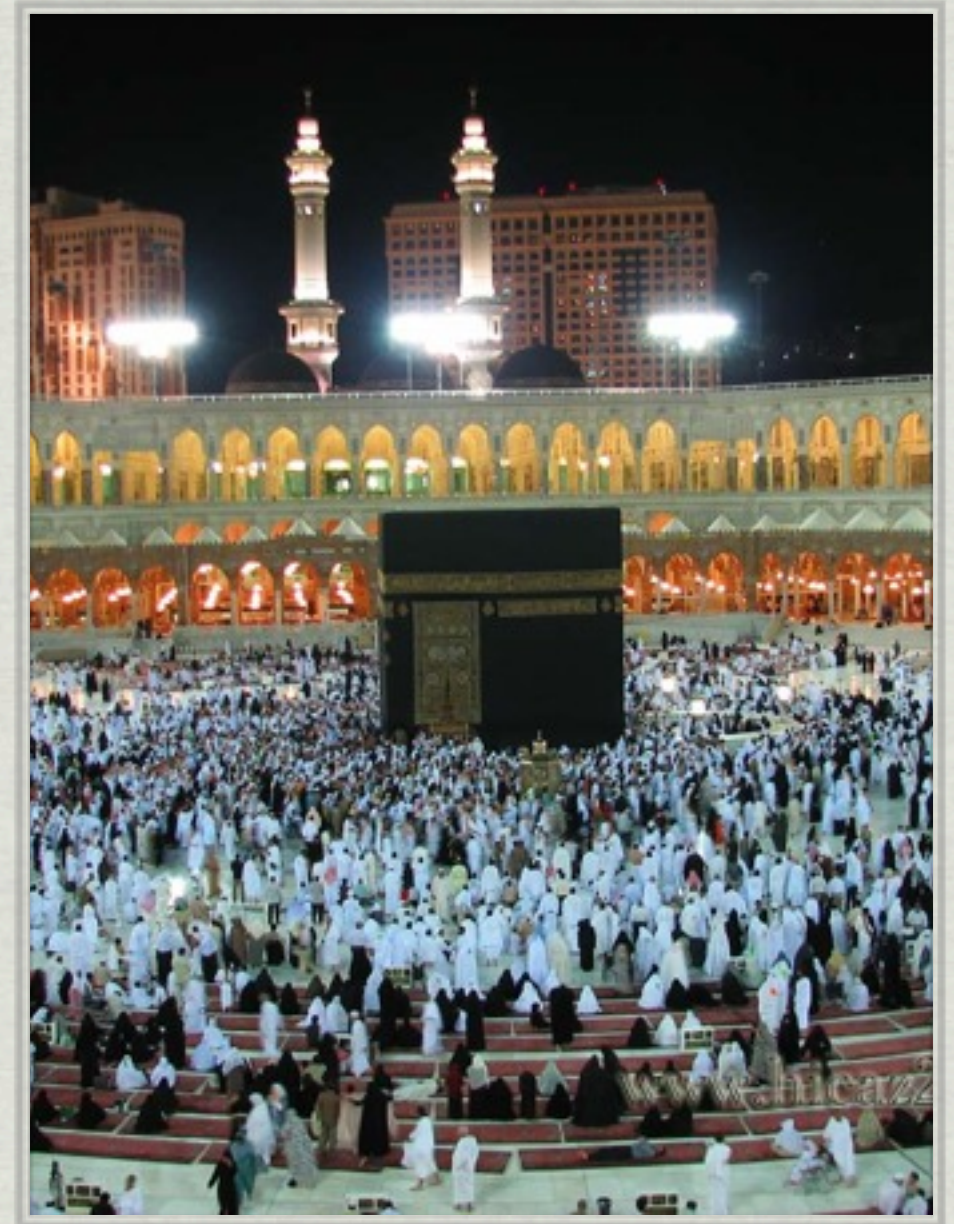

- ✱ The athletic skills that I believe that I achieved in is Baseball. The position that I play in baseball, is second baseman. I have been playing baseball since I was 7 years old. Of coarse when I first started playing baseball I didn't know which position I would play, but later on when I joined my school baseball team, I realized that I was best for second baseman. I was joined m school baseball team two years ago.

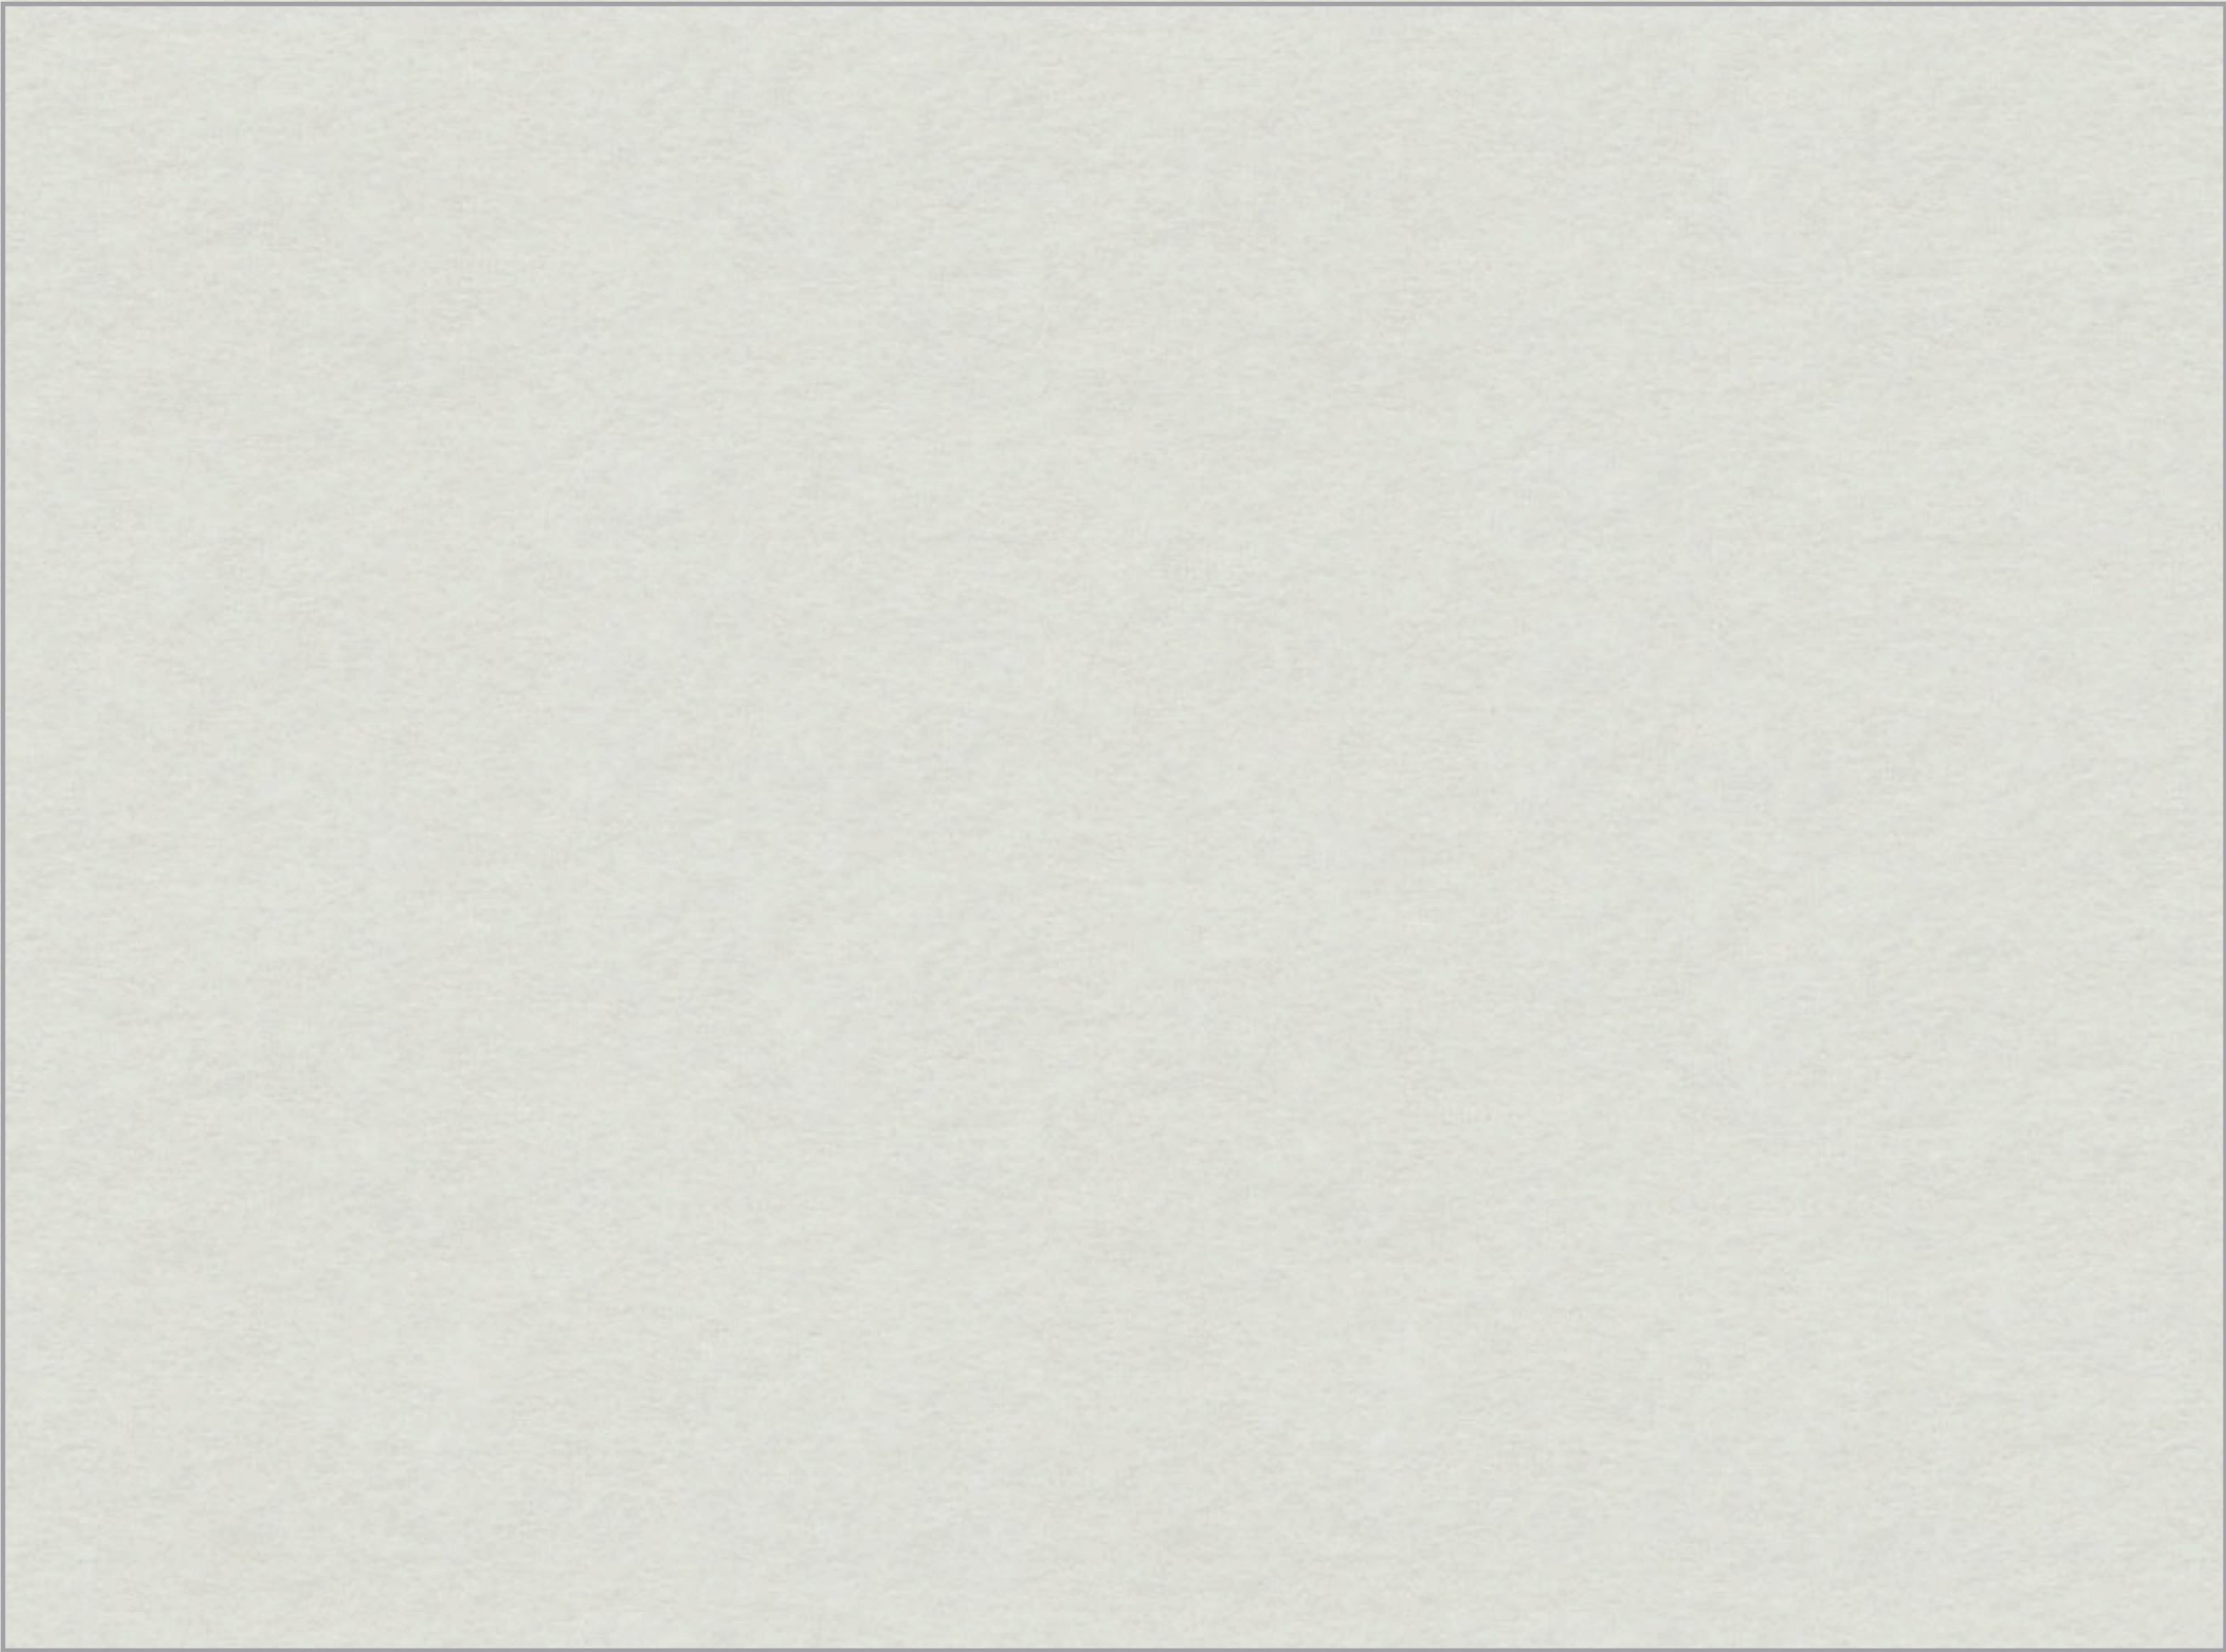

My Religion

- ✱ The religion that I follow is islam. My mother and father are muslim, so that makes me a born muslim. Another way in which someone can be muslim, is if they convert to islam. In islam, it is that we pray 5 times a day, but if you cannot you have to make it up later. It is also mandatory for men to go to the masjid on fridays, if possible. In islam the prophet that we follow is Mohammed.

Conclusion

- ✱ In conclusion, there is many things that I can physically and mentally in order to make me a better person in life. There are also many goals that I wish to accomplish, in order to make myself a better person.

The End.
